

ROBERT DODGE

GE

Rob is an experienced HR Operations & HR Systems Leader, currently working to select and implement an HR cloud solution. He is at his best when solving problems, large or small, that enable our HR community to deliver the greatest employee experience. To Rob it seems like only yesterday that he joined the HR department at the great General Electric Company, back when they would still “bring good things to life”. Sixteen years and several company slogans later, Rob is now a Product Manager for GE’s HR systems, responsible for the management and quality of data for over 300,000 employees worldwide. “My favorite part of the job”, he says, “is having the opportunity to work with amazing people all over the world who are accomplishing incredible things daily. And also, the light bulb discounts.”

He holds a bachelor’s degree in Mathematics from the University at Albany. Outside of work, Rob enjoys outdoor activities with his family, and loves to cook. He also serves on the Board of Directors for JDRF of Northeastern New York, working hard to help find a cure for Type 1 Diabetes.
