

FLATLEY READ, INC.

Lead Safe Work Practices for Renovation, Repair, and Painting (Initial)

The Environmental Protection Agency's (EPA's) Lead Renovation, Repair, and Painting (RRP) rule requires firms performing renovation, repair and painting in pre-1978 housing or child-occupied facilities to assign to each job a certified renovator who is trained in lead-safe work practices by an accredited training firm.

Next Training: Monday May 4, 2020 (via Zoom)

COVID Response

Flatley Read, an EPA-accredited training firm has been given permission by the EPA to deliver lecture portions of the training online via Zoom. Participants will be provided a link to the Zoom session and then will be required to go to the Flatley Read office at a designated time to take a proctored exam and complete hands-on activities from a safe social distance.

AS A THANK YOU AND TO HELP PERSONS AFFECTED BY COVID-19 WE
ARE PROUD TO OFFER A 20% DISCOUNT FROM OUR REGULAR PRICE

Cost: \$220 Per Person
