

KYLA PHILBROOK

MVP Health Care

Kyla Philbrook is a Leader of Quality Enablement at MVP Health Care, where she leads departmental and organization wide efforts to meet quality and regulatory requirements for all lines of business. With a background in project management, Kyla led MVP's successful Integrated Health initiative and the related behavioral health readiness review process in preparation for administering those benefits to membership in New York State. Prior to joining MVP in 2019, Kyla served as a project manager at Alliance for Better Health and in analyst and administrative roles at Albany

Medical Center in IT and the Department of Surgery, respectively.

Kyla earned her MBA in Healthcare Management from Clarkson University, Capital Region Campus and a BA from the University at Albany. In her spare time, Kyla is an avid home cook and baker, contributes to the general recipe testing efforts for America's Test Kitchen, and enjoys a long weekend in the canoe, seeking out backcountry camping opportunities with her husband.

Blake enjoys working with the public and providing opportunities for their connection with the rare ecosystem at the preserve.
