

Louis A. Dahoda

Financial Advisor

Edward Jones

Louis joined the Chamber in 2012 when he saw their mission statement and realized it paralleled his mission as a financial advisor at Edward Jones. The Mission, to work for individuals and businesses to identify opportunities that create a successful economic environment with an exceptional quality of life, exemplifies what Louis strives for each day. Volunteering as an ambassador allows Louis to further help the community, in which he was born and raised, to be the premiere location to raise your family and grow your small business.

Louis started his career at Edward Jones in 2009 after doing his due diligence in finding the best company to bring to our community. Edward Jones is a different kind of investment firm. Louis meets with you, face to face, to learn your individual needs so you can develop a strategy together to help you achieve your long-term financial goals. Whether you are planning for retirement, saving for college, reducing your tax bills or ensuring you have income to cover expenses, Louis offers personalized service and long-term investing strategies for individuals and small businesses.
