

ZACHARY BOBERSKY

Ungerma Electric

Zachary Bobersky was born and raised in the Capital Region. He earned a Bachelor's degree in Business Administration and Management from Quinnipiac University. He works at Ungerma Electric as the Director of Business Development.

Ungerma Electric is a family-run business and community staple, started by his grandfather over 50 years ago and now owned and operated by his mother. He worked at Ungerma Electric throughout high school and college as an Assistant Office Manager, Junior Electrician, and more, learning the ins and outs of the business. In his current role, he is responsible for servicing commercial and residential customers along with managing technicians. Before returning to Ungerma Electric in 2019, Zachary lived in Boston, MA, and worked as Sales Development Representative and then an Account Executive for TechTarget. During this time, he refined his sales skills and learned how to provide exceptional customer service.

Continuing to grow Ungerma Electric throughout the Capital Region is Zachary's primary goal. The Capital Region community has been integral in the success of Ungerma Electric and ensuring the business can give back to the community is vital.

This year, Zachary obtained his Master Electrician License from the city of Troy and is preparing to obtain licenses in Schenectady and Albany.
